CHRONO-ART

Established 1971

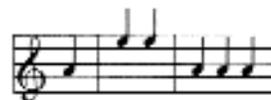

Conversation pieces that delight for a lifetime

9175 Poplar Ave. ¥ Cotati, CA 94931 ¥ 707-795-1895

Features

- Activated by your touch, Eventide chimes the exact time to the minute. With each chime Eventide emits a band of amber light.
- Eventide's light and airy chimes are never intrusive but rather a musical compliment to any environment. The automatic hourly and half-hour chimes maybe turned off (especially nice in the bedroom. Just touch it to hear the time without opening your eyes).
- Quality radiates from the heavily polished brass sides which are rhodium or 24k gold plated. The sides are suitable for engraving. The gold is accented with highly polished glass-green colored acrylic. The rhodium is accented with light-blue.

Just touch and hear
